April 18, 2012

Mr. Laurent Ntibarikure
University of Florence
3, Via di S. Marta
Florence, 50133

Dear Mr. Laurent Ntibarikure:

On behalf of Program and Organizing Committees of the 11th International Workshop on Finite Elements for Microwave Engineering – FEM2012, to be held from June 4-6, 2012, in Estes Park, Colorado, USA, we would like to invite you to Estes Park, Colorado, USA, to present your work in the field of finite elements for microwave engineering. The FEM International Workshop is a highly focused biannual event providing an ideal meeting place for researchers who are active in either the theoretical and numerical development of finite element and hybrid methods or their application to a broad range of electromagnetic problems. The workshop will be held in The Stanley Hotel, a historic landmark hotel in a spectacular mountain-view location, near the Rocky Mountain National Park. The workshop is technically co-sponsored by the Institute of Electrical and Electronics Engineers (IEEE), the IEEE Antennas and Propagation Society, the IEEE Microwave Theory and Techniques Society, and the International Union of Radio Science (URSI).

Your paper entitled "Harmonic Balance Domain Decomposition Finite Element for Nonlinear Passive Microwave Devices Analysis" is an important contribution to the technical program and we look forward to its presentation by you and your coauthors and the associated discussion at the workshop. This letter serves as the official invitation to attend the workshop. However, please note that all workshop attendees are financially responsible for conference registration, travel arrangements, and local expenses to attend the workshop.

It is your responsibility to inquire about the Visa requirements necessary for you to enter and leave the United States. It is important that you check with the closest US Consulate or Embassy as soon as possible in order to determine these requirements.

Thank you for your valuable contribution to FEM2012, and we look forward to welcoming you in Estes Park, Colorado, in June.

Sincerely,

A handwritten signature in blue ink, appearing to read "B. Notaros".

Prof. Branislav M. Notaros,
Colorado State University

General Chair of the 11th International Workshop on Finite Elements for Microwave Engineering – FEM2012, to be held June 4-6, 2012, Estes Park, Colorado, USA, <http://www.engr.colostate.edu/FEM2012>
